About us

Asian Education Foundation is a government-registered educational trust (Govt. of Kerala Reg. No. : 48/ IV/ 2022) established to motivate students for continuous learning. Our institution dates back to several years of expertise in the academic sector that prioritized people's development through education. Asian Education Foundation looks upon enhancing quality learning for academic enthusiasts who are ended their education for various reasons. Our fundamental aim relies upon the notion of continuing education. We purposefully coordinate to assist them in quickly gaining admission to the appropriate courses. Our goal is to provide unbiased education to people of all socio-cultural backgrounds.

Our Vision

We aspire to achieve the primary goal of improving India's future by providing education to entire populations who are forced to stop learning in the middle. Our intention is to build a healthy universe where no one is hindered from learning. Creation and establishment of a versatile and competent Open and Distance Learning system to meet society's educational aspirations is our major objective.

Our Mission

We firmly believe that providing better education to Indian citizens can make a huge difference in our living conditions. Thus, Asian Education Foundation is obliged to assist and abridge continuous education for 10000 students annually in India by providing them with indiscriminate education. To provide a quality education that is affordable and accessible in order to improve the academic value and skills of higher education aspirants is our mission.

Our Services

Asian Education Foundation assists in various academic disciplines spanning from SSLC to higher education. The programs offered by Asian Education Foundation are entirely for working professionals and people who are interested to continue their incomplete courses. The services we provide are listed below.

- Asian Education Foundation assists students who are unable to complete their 10th or 12th grades. We help students with study materials and the documentation process via the NIOS secondary and senior secondary courses.

SECONDARY COURSE

About NIOS

The National Institute of Open Schooling (NIOS), formerly known as the National Open School, is an Indian national-level education board that is controlled and managed by the Government of India. It was founded in 1989 by the Government of India's Ministry of Human Resource Development. From 2004 to 2009, NIOS had a total enrollment of approximately 1.5 million students at the secondary and senior secondary levels, and it currently enrolls approximately 350,000 students per year, making it the world's largest open schooling system.
